user1

commit
info

if branch →
off
something

earliest

user 2

Focus on user commits
group commits by branch
show other commits / other users?

similar info on nodes,
colors on branch

distance between nodes (horizontally)
- commit size? time?

user1

Commit info

- too similar to current vis?

- doesn't show interrelation of
users v well

user 2

commit

main

colored by user
size = lines changed?

messy
non-main branches
